License Return

Dear Sir/Madam

I was the Chief Operator for WVMC Mt. Carmel, IL as listed above. *I received the mailed license for WVMC and wish to return the license as the station has been silent since May 2008.*

Wabash Communications was an Illinois Corporation revoked by the State of Illinois. The attached record indicates this. While the Commission noted Wabash Communications as the licensee, the station was transferred to Wabash Broadcasting and Mr. and Mrs. Robert Walter without Commission approval.

There are numerous unpaid bills and the Internal Revenue Service and 2 different banks (First Robinson Savings Bank of Robinson, IL and First National of Allendale, IL) foreclosed on the station. The Internal Revenue Service also placed a claim on the facilities. There was a Sheriff's sale of the WVMC studio location and WVMC tower location scheduled for January 31, 2009. The station studio (606 and 610 Market Street) has been sold and converted to an apartment. The WVMC tower site (15739 Highway 1) was foreclosed on by the bank and the facility was locked. *Both WVMC and its companies are legally defunct, not in business, and the station has been silent well over a year.*

If you look at the change date of agent on Wabash Communications, this is the incorporation date of Wabash Broadcasting. Some employees were paid by Wabash Broadcasting (after the unauthorized transfer) but their withholding taxes were not paid. The I.R.S. is attempting to collect past taxes from the principals of both corporations, Wabash Communications Inc, Wabash Broadcasting Inc, and their principals Kevin Williams and Mr. and Mrs. Robert Walter. *In either case both companies ceased existence in 2007 and 2008 respectively.*

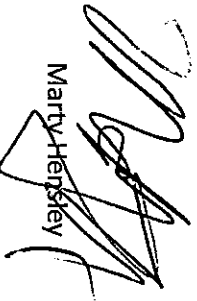

The WVMC Public Inspection File shows no issues and Answers well prior to May 2008, or any other activity after this date. Nothing has been added to the Public Inspection File to reflect renewed activity. Prior to becoming silent it had no remote control as the control line was disconnected. The tower lights have been off, the fence around the tower is not enclosed, and the station has been silent well over a year. My examination of the facility showed it off the air on the following months: May 2008, June of

2008, July 2008, September 2008, November 2008, December 2008, January 2009, May 2009, and June 2009. To the best of my knowledge at this time the station is still off the air.

In January 2010 Wabash and WVMC did not have a facility (studio or tower) to transmit from or have control of their former facility.

Again, as the Chief Operator for WVMC, it ceased broadcasting May 2008. Prior to this time the station had been silent for extended periods of time. The facility has been silent for more than 12 consecutive months. The station has not returned to air and I have received the attached License, which I am returning.

Please delete the facility from your records as it has been silent well over a year and has not returned to air. *The license for the station is being returned as WVMC is no longer on the air.*

Marty Hensley
